PROFESSIONAL SUMMARY

Results-driven cybersecurity professional with hands-on experience across SOC operations, SIEM engineering, penetration testing, and security research. Currently serving dual roles as Cybersecurity Analyst at TalixMan Group (Dakar) and Cybersecurity Engineer at PipeOps (remote). Published researcher in AI-augmented enterprise security. Active CTF competitor with multiple national and regional first-place finishes, demonstrating a consistent track record of practical offensive and defensive security expertise.

PROFESSIONAL EXPERIENCE

Cybersecurity Engineer · *PipeOps* · Remote Oct 2026 – Present

- Design and enforce security controls across cloud-native DevOps infrastructure serving thousands of active deployments.
- Conduct regular vulnerability assessments and penetration tests against internal services and customer-facing surfaces.
- Build and maintain automated security pipelines for container image scanning, dependency auditing, and runtime threat detection.
- Lead incident response procedures and post-incident reviews; author security runbooks and hardening playbooks.

Cybersecurity Analyst · *TalixMan Group* · Dakar, Senegal Sep 2025 – Present

- Deployed and maintain a Wazuh-based SIEM infrastructure with custom detection rules, integrations, and dashboards for SOC operations.
- Hardened the Microsoft 365 / Azure Entra ID tenant — conditional access, MFA enforcement, Defender policies, and privileged identity management.
- Perform continuous threat monitoring, triage, and incident response across endpoints, cloud workloads, and network layers.
- Authored internal security policies and trained staff on phishing awareness and secure-by-default practices.

Cybersecurity Specialist & Trainer · *CyberTech Nexus* · Nigeria Apr – Jul 2025

- Designed and delivered practical cybersecurity training programmes covering network security, ethical hacking, and defence fundamentals.
- Developed hands-on lab environments and assessment materials used by trainees across cohort engagements.

Penetration Tester Intern · *HackersDaddy* · Nigeria Aug – Nov 2024

- Executed black-box and grey-box penetration tests against web applications, APIs, and internal network segments.
- Produced detailed vulnerability reports with CVSS scoring, proof-of-concept exploits, and remediation guidance.

EDUCATION

Bachelor of Technology — Cybersecurity 2020 – 2025

Ladoke Akintola University of Technology (LAUTECH), Ogbomoso, Nigeria

Second Class Upper (Honours) · CGPA: 4.30 / 5.00

CERTIFICATIONS

OSCP (OffSec Certified Professional) · **CPTS** (HackTheBox) · **CRTA** (Certified Red Team Analyst) · **CAP** (Certified AppSec Practitioner) · **CNSP** (Certified Network Security Practitioner) · **ISO/IEC 27001** Lead Implementer

TECHNICAL SKILLS

Languages: Python, C, Bash / Shell scripting
Cloud & Infrastructure: Microsoft Azure, AWS, Entra ID, Microsoft Defender, Wazuh SIEM
Security Tools: Burp Suite, Metasploit, Nmap, GDB, pwntools, Wireshark, IDS/IPS, EDR platforms
Specialisations: SOC operations, SIEM engineering, penetration testing, red teaming, vulnerability assessment
Human Languages: English (fluent) · French (intermediate)

PUBLICATIONS & RESEARCH

PROJECTS & CTF DEVELOPMENT

CTF Challenge Developer & Azure Cloud Administrator · *Independent* · Remote Jan 2023 – Present

- Design and deploy original Capture The Flag (CTF) challenges covering binary exploitation, web security, forensics, and cloud misconfiguration scenarios.
- Manage Azure-hosted competition infrastructure; responsible for environment security, availability, and participant onboarding.
- Published write-ups, research notes, and tools at paul-ige.vercel.app.

AWARDS & COMPETITIONS

EcowasHackathon CTF: 1st Place (2026) · 3rd Place (2024, 2023) · 2nd Place (2022)
NCSC Hackathon CTF 2025: 1st Place · **Africa CyberFest24 CTF:** 1st Place
UrchinSec Cyber Aware 2024: 3rd Place · **Diaries of Hackers (NG) CTF 2022:** 2nd Place
